5559	9	10	100
5560	10	10	100

DESCRIPTION

Material >> Blue acrylonitrile

Length >> 33 cm

Thickness >> 0.22 mm

Inside >> Non flock lined

SECTORS

Maintenance

Service

Energy

APPLICATIONS EXAMPLES

- Precision handling with light chemical protection,
- Gluing, varnish preparation,
- Assembly, machining in oily environments,
- Cleaning work

TECHNICAL FEATURES

Fabrics Unsupported interior Supplement information 3 Length: 33 cm

Type Of Cuff Straight cut

Material of coating Nitrile

Construction Seamless knitting

Supplement information
Supplement information 2

Exterior Finish
Coating level

Blue acrylonitrile
Thickness: 0,22 mm

Adhesive Total coating

INSTRUCTIONS FOR USE AND STORAGE

Instructions for use:

- It is recommended to pre-test the gloves, as the actual conditions of use may differ from those of the "EC" tests. Performance levels are only guaranteed on the palm of the glove when new.
- Wear gloves on dry, clean hands.
- Do not use gloves in contact with a chemical product for longer than the measured permeation time. Refer to the website www.europrotection.com
- In use with a dangerous liquid, turn the cuff edge over to prevent drops from falling on the arm.

Storage instructions:

- Keep gloves away from light, moisture and sources of heat.

Cleaning instructions:

- The washing of the gloves varies according to the materials of the product. See the recommendations on the package leaflet.

LEGISLATION

This glove conforms to the personal protective equipment model covered by the EC type-examination certificate. **0321/11254-02/E04-01**. Delivered by **SATRA** (**321**).
